UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

October 17, 1979

DOCKET NO. 80-155

Consumers Power Company  
ATTN: Mr. David A. Bixel  
Nuclear Licensing Administrator  
212 West Michigan Avenue  
Jackson, Michigan 49201

Gentlemen:

We have received a copy of your application dated September 28, 1979, which you filed with the Office of Nuclear Reactor Regulation (ONRR) for review and approval. The application proposed Technical Specifications relating to the Big Rock Point Plant reactor vessel water level. You determined that the application was exempt from the fee requirements of 10 CFR 170.22 because you were voluntarily proposing the changes in lieu of the Nuclear Regulatory Commission (NRC) imposing these requirements by order pursuant to 10 CFR 2.204.

Since plant specific reviews are required and the reviews involve consideration of a single safety issue, which resulted from a May 2, 1979 event at Oyster Creek, all licensees of plants with potential similar problems are required to pay a Class III fee of \$4,000 for the license amendment. The Class III fee for Big Rock should be submitted to this office promptly.

If the final review of your application by the ONRR staff reveals that the fee cited above is incorrect, you will be refunded any overpayment or billed for any additional amount due.

Sincerely,

*W. O. Miller*

William O. Miller, Chief  
License Fee Management Branch  
Office of Administration
