Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Ref: Certificate of Compliance No. 5926

Dear Mr. MacDonald:

The General Electric Co., Vallecitos Nuclear Center (VNC), hereby requests that Section 5.(b)1 of Certificate of Compliance No. 5926 be amended in part to read:

"..... or solid oxide form or in special form."

VNC also requests that Section 6. be amended in part to read:

"..... General Electric Company's submittal dated June 13, 1969,
or in special form."

As special form material has more stringent requirements than previously approved contents for the container, the addition of special form material to the permitted contents poses no safety question.

A check for \$150.00 for an administrative amendment fee is enclosed.

Sincerely,

G. E. Cunningham
Sr. Licensing Engineer
