Dear Council of Chiefs:

The U.S. Nuclear Regulatory Commission (NRC) recently issued for public comment a draft site-specific Supplemental Environmental Impact Statement (SEIS) to its "Generic Environmental Impact Statement for License Renewal of Nuclear Plants," NUREG-1437. The SEIS assesses the subsequent renewal of the operating licenses for Peach Bottom Atomic Power Station, Units 2 and 3. As stated in the NRC's letter to your Tribe dated August 7, 2019 (Agencywide Documents Access and Management System No. ML19205A211), pursuant to Title 36 of the *Code of Federal Regulations* Section 800.8(c), we are requesting your comments on the draft SEIS and on our preliminary conclusions. It was recently brought to our attention that the CD enclosed with the August 7, 2019, letter may not contain the draft SEIS as intended. I apologize for this inconvenience. Please find enclosed a corrected version of the CD with the draft SEIS. A copy of the draft SEIS is also available via the following link: <https://www.nrc.gov/docs/ML1921/ML19210D453.pdf>.
