Commonwealth Edison Company  
ATTN: Mr. Cordell Reed  
Assistant Vice President  
P. O. Box 767  
Chicago, Illinois 60690

Gentlemen:

BYRON STATION, UNITS 1 AND 2, AND BRAIDWOOD STATION, UNITS 1 AND 2

We note that your operating license applications for the captioned nuclear units have now been accepted for health, safety and environmental reviews. Our records do not indicate receipt as yet, however, of information identified in Regulatory Guide 9.3 (copy attached) in connection with antitrust considerations for the operating license review. We would appreciate it if you could supply this information in the near future to assist us in making a finding as to whether any significant changes have occurred subsequent to the previous construction permit review that would now warrant another antitrust review at this operating license review stage.

Sincerely,
