Docket No. 50-311

Dr. Stephen Lawroski  
Chairman, Advisory Committee  
on Reactor Safeguards  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Dr. Lawroski:

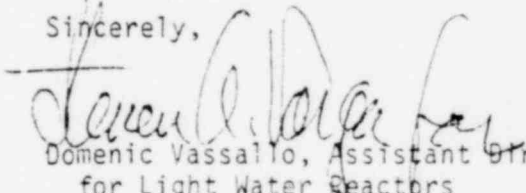

SUBJECT: ISSUANCE OF SUPPLEMENT NO. 3 TO THE SALEM NUCLEAR  
GENERATING STATION, UNIT 2

Sixteen copies of Supplement No. 3 to the Safety Evaluation Report prepared by the Office of Nuclear Reactor Regulation in the matter of the application filed by the Public Service Electric and Gas Company for a license to operate the Salem Nuclear Generating Station, Unit 2 are enclosed for review by the Committee.

Nine issues remain outstanding. These issues are identified in Section 1.7 of the supplement. Six of these issues represent items for which additional information is required from the applicant, three of these issues represent items for which our evaluation is not complete. We will require resolution of all issues prior to a decision on issuance of an operating license.

There are 11 issues for which we have completed our review and have determined positions which are acceptable to the staff. The applicants have been advised of our positions and we are awaiting confirmation of the applicants intent to comply with these positions. These issues are identified in Section 1.8 of the supplement.

Sincerely,

  
Domenic Vassallo, Assistant Director  
for Light Water Reactors  
Division of Project Management
