NRC PUBLIC DOCUMENT ROOM

Motion for Time Extension to
File Exceptions to Licensing
Board's Initial Decision

On December 26, 1978, the Licensing Board issued an Initial Decision on the cost/benefit issues raised in the above-captioned proceeding and therein granted the Applicant's a construction permit.* The Decision was served on the parties on December 28, 1978, but was not received by the County until January 4, 1979. The Decision provides that exceptions be filed within 10 days of service or by January 8, 1979. In view of the delayed service of the Licensing Board's Decision upon the County, it is respectfully requested that its time for filing exceptions be extended to January 15, 1979. Counsel for the Applicant Long Island Lighting Company and NRC Staff Counsel have been advised of this request for additional time and have no objection to same.

The County also requests that the schedule for filing of briefs by the parties (see Initial Decision, 44-45) be computed from the January 15, 1978 date.

* The Licensing Board disposed of all other issues in its May 9, 1978 Partial Initial Decision. Said decision is presently under review by this Board.

7901240306

Respectfully Submitted,

Irving Like (cc)
