

Peter A. Morris, Director  
Division of Reactor Licensing

THREE MILE ISLAND NUCLEAR STATION, UNIT 1  
DOCKET NO. 50-289

Adequate responses to the enclosed list of questions, prepared by the DRS Mechanical Engineering Branch, will be required in order to complete our review of the subject application. These questions concern the fracture toughness criteria applicable to ferritic materials within the reactor coolant pressure boundary as covered in Section 4 of the PSAR.

Original signed by  
E. G. Case

Edson G. Case, Director  
Division of Reactor Standards
