

UNITED STATES
NUCLEAR REGULATORY COMMISSION

RELATED CORRESPONDENCE

ANNOUNCEMENT NO. 93

DATE: August 24, 1979

TO: Directors of Offices, Divisions and Regional Offices
Assistant Directors and Branch Chiefs

SUBJECT: TRIAL PROGRAM ON FREE DISTRIBUTION OF NRC DOCUMENTS TO
PARTICIPANTS IN ONGOING NRC PROCEEDINGS

The Commission has approved the initiation of a six-month trial program of providing to full participants in ongoing NRC proceedings, free copies of final NUREG documents that are announced in the Federal Register. For this purpose, 200 extra copies of such NUREG documents will be printed. It will be necessary for Division of Technical Information and Document Control (TIDC) (Walter Olin) to be informed that availability of the NUREG document is to be announced so that the print order can be adjusted to provide the 200 extra copies.

Full participants who want free copies must request them in writing and must identify themselves as full participants in an ongoing NRC proceeding. A single copy will be sent free of charge to each such requester while the 200-copy supply lasts during the trial period, which will end March 1, 1980.

The following statement should be included in any Federal Register notices of the availability of a final NUREG document:

A single copy of NUREG-XXXX, (title), will be provided free of charge, while the supply lasts, upon written request of a full participant in an ongoing NRC proceeding. The request must identify the requester as a participant.

TIDC will maintain records on the requests received and will determine the cost of this trial program.
