

In the Matter of
HOUSTON LIGHTING & POWER CO.
(Allen's Creek 1)

Docket 50-466

POOR ORIGINAL

In previous interrogatories, the Applicant requested information on the refuse-to-energy project planned by the Gulf Coast Waste Disposal Authority. At that time, TexPIRG could provide only scant information on the details of that proposal. TexPIRG now has knowledge as to the proposed design--it is the type used in Duseldorf, Germany. TexPIRG has in its possession a diagram of the process used there. The Applicant may make an appointment to examine that diagram, and other documents we have on that proposal, by calling TexPIRG officer Steve Kirkland at 713-527-4099.

Sincerely,

Clarence Johnson

Executive Director, TexPIRG

CERTIFICATE OF SERVICE

I, Clarence Johnson, herein certify that this supplemental notice to Houston Lighting and Power Company, and the enclosed Motion for Reconsideration of the Board's Order have been served upon all formal parties of record to this proceeding, and the NRC Licensing Board and Staff. Service was effected by mail on Oct. 10, 1979.
