Gentlemen:

This office has received a copy of your September 24, 1979 application which you filed with the Office of Nuclear Reactor Regulation (ONRR) requesting an extension of the completion dates set forth in Construction Permits CPPR-99 and CPPR-100 for LaSalle County Station, Units 1 and 2. The application was not accompanied by an amendment fee as prescribed by Section 170.22 of 10 CFR 170. Section 170.12(c) requires that your Company provide a proposed determination of the amendment class, state the basis therefor, and submit the fee with your application for amendment.

Based on guidance from the ONRR staff as a result of their preliminary review of your application, it has been determined that the requested action falls into Class II (\$1,200) for LaSalle 1 because it is of an administrative nature and Class 1 (\$400) for LaSalle 2 as a duplicate. You should forward the amendment fees totalling \$1,600 promptly to this office. Fees are payable to the U.S. Nuclear Regulatory Commission by check, draft, or money order. If after the final evaluation of your application is completed it is determined that it was incorrectly classified, you will be billed for any additional amount due.

If we can be of assistance to you, call 301/492-7225.

Sincerely,
