Glen Ellyn, Illinois 60137

Dear Mr. Keppler:

This letter is in response to your November 30, 1979 letter, requesting back-up power for the red emergency (OPX lines) telephones at our Davis-Besse site. A Facilities Change Request was initiated on January 26, 1979 to provide the necessary back-up power supply to the telephone system. This Facility Change Request has been expanded to include connection to the uninterruptible power supply which will provide the requested back-up power to the red emergency (OPX lines) telephones.

Review completion is expected the week of December 17, 1979. Installation is expected to be completed approximately four (4) weeks after review. The four (4) week installation time is contingent upon material availability.

Yours very truly,

*R. P. Crouse / ECR*
