UNITED STATES OF AMERICA NUCLEAR REGULATORY COMMISSION

BEFORE THE ATOMIC SAFETY AND LICENSING BOARD

In the Matter of	
SACRAMENTO MUNICIPAL UTILITY DISTRICT) Docket No. 50-312 (SP.
(Rancho Seco Nuclear Generating Station	1))

NRC STAFF'S RESPONSE TO CALIFORNIA ENERGY COMMISSION'S SECOND REQUEST FOR PRODUCTION OF DOCUMENTS TO THE NUCLEAR REGULATORY COMMISSION

Pursuant to the California Energy Commission's Second Request for Production of Documents dated December 21, 1979, the NRC Staff is enclosing the draft copy of "Action Plans for Implementing Recommendations of the President's Commission and other Studies of TMI-2 Accident, "NUREG-0660 (December 10, 1979). This document has been referred to in the Staff's response to Interrogatory 10 (Second Set). We would further note that this document is a draft Action Plan and is considered incomplete at this time because it has not identified any additional requirements that may be recommended as a result of the NRC Special Inquiry Report.

Respectfully submitted.
