A. E. Lundvall, Jr., same subject.
(b) BG&E letter dated 1/22/80 from A. E. Lundvall, Jr.
to H. R. Denton, same subject.

Dear Mr. Denton:

Reference (b), which was submitted in response to Reference (a), forwarded our expected schedule for delivery of equipment necessary to implement certain Category "A" items of NUREG-0578. Due to changing supplier commitments, we now find it necessary to modify that expected schedule. The new schedule is attached. All of the items on the schedule apply to both Calvert Cliffs Units, and we intend to have all equipment installed within 30 days of the latest delivery date shown so as to optimize our outage schedules.
