RM-50-3

United States of America
Nuclear Regulatory Commission

Gentlemen:

The Commission's order dated 12-15-78 was received by me on 12-18-78. This is the fastest that I have received anything in the Docket RM 50-3. I presume that this speed-up is caused partially by my objections to slow delivery of Docket RM 50-3 mail in the past. I am pleased with the speed up in delivery of the Commission's orders to this participant.

I respectfully thank and gratefully accept the allotment of 20 minutes of the Commission's time on 1-19-78 at 9:15 AM in the Commission's Conference Room at 1717 H St., N.W., Washington, D.C. Judith H. Johnsrud, Ph. D., has specialized in the geographical impacts of nuclear power. She is as close to an erudite person as this modern age can produce, and a supreme example of a committed and resourceful intellectual. Her Ph. D. thesis was entitled, "A Political Geography of the Nuclear Power Controversy: The Peaceful Atom In Pennsylvania."

Dr Johnsrud has graciously acceded to my request to share the 20 minutes allotted to me. At this point, we cannot specify the exact time each will speak, but the total time will not exceed the allotment.

I shall bring a typewritten statement, but I may not read the entire statement due to time constraints.

I am also requesting clarification about the sentence on Page 2. "Brief rebuttal statements may be allowed at the Commission's discretion."

Does this mean that all and any participant will be allowed to rebut all and any other participant at any time in the proceedings? If not, how will rebuttal be handled? Can Dr Johnsrud or I make a short rebuttal statement at the very end?

Gratefully,

Marvin I. Lewis, R.P.E.

A participant in USNRC Docket RM 50-3
