Dear People

POCKET NUMBER
PROD & UTIL FAC 50-275-323 04

In regard to the licensing of the Diablo Canyon Nuclear Power Plant in San Luis Obispo, CA., I wish to add my voice to those concerned enough to protect the obvious danger to all life arising from the insanity building nuclear generators on or near known earthquake faults.

Further, I rise up with other intelligent beings in total indignation at the clearly greed-motivated desire of whole groups of materially powerful, but sick animals who are not able to comprehend the vast, unlimited potential of natural energy sources such as our own sun, and who instead desire to fill their own pockets even at the expense of their own children and their children's

The facts speak for themselves. This
I wish to say.

Ajine Whetstone
