UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

September 26, 1979

Docket No. 50-250

Dr. Robert E. Uhrig, Vice President
Advanced Systems and Technology
Florida Power and Light Company
Post Office Box 529100
Miami, Florida 33152

Dear Dr. Uhrig:

The Commission has issued the enclosed Amendment No. 50 to Facility Operating License No. DPR-31 for the Turkey Point Nuclear Generating, Unit No. 3. The amendment consists of changes to the license in response to your application transmitted by letter dated August 7, 1979. Your application also included a request for an extension of the operating interval for Unit 4. We have not completed our review of that request.

The amendment permits continued operation of Turkey Point Plant Unit No. 3 for an additional seven effective full power weeks from March 29, 1979 or until the next refueling outage, whichever occurs first. Also, for our administrative convenience, we are issuing new pages 1 through 5 of Facility Operating License No. DPR-31.

Copies of the Safety Evaluation and the Notice of Issuance are also enclosed.

Sincerely,

for *Charles M. Trammell*
A. Schwencer, Chief
Operating Reactors Branch #1
Division of Operating Reactors
