Chapel Hill, N.C. 27514

DOCKET NUMBER

PROPOSED RULE

(69)
PR - 73(44FR 34466)

Dear Mr. Kasen,

I am shocked to hear that nuclear waste can be transported through the Chapel-Hill - Durham - Carrboro area. This is a densely populated area, which possibly may not be shown adequately by figures -- There is a large temporary population consisting of students of UNC & other schools. It is alarming enough that the stuff is allowed to move through any area at all, much less through cities of this size -

I appreciate your attention,

Carol Apollonio
