The subject report is forwarded for information.

A number of deficiencies were identified by the licensee's audit of Crane Company. These deficiencies are being maintained as unresolved items under the Three Mile Island 1 docket and will be resolved during our subsequent inspections of this facility. In addition, we plan to review these items at the Crane Company during subsequent inspections of this vendor.

Our inspector has reviewed the Crane Company response letter which the licensee considers unsatisfactory and further correspondence between Met Ed and Crane is in preparation.
