Ms. B. L. Wright
U. S. Nuclear Regulatory Commission
Export/Import and International Safeguards
Washington, DC 20555

Reference: BX-10891

Dear Ms. Wright:

Please grant us an amendment to NRC License XSNM-01502 to include two (2) additional moveable incore detectors. Total quantity of material contained in the two detectors is:

0.0082 grams U-235
0.0088 grams of Uranium

They will be enriched up to 94 w/o and be identified as model WL-23630.

All three detectors will be used in the Doel Nuclear Power Station in Doel, Belgium.

Yours truly,

R. P. Keenan
