

# THE **PESES** CO.

November 13, 1979  
(Dictated 11/12/79)

Mr. Boyce Grier  
United States Nuclear Regulatory Commission  
Region 1  
631 Park Ave.  
King of Prussia, PA 19406

Dear Mr. Grier:

We received your form letter of November 1 on November 7. This was relative to your August 10 mailing of your IE Bulletin, which we have no record of having received.

In answer to the three questions under Item 9:

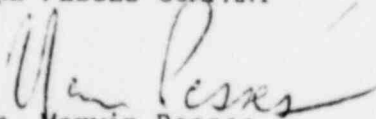

- (1) We have made no low-level radioactive shipments.
- (2) We do not generate liquid low-level radioactive waste.
- (3) The only materials we receive are some Thoriated Magnesium Scrap and Thoriated Nickel Scrap.

We are of the opinion that this bulletin is of no relevancy to us, inasmuch as we do not ship any waste; we solely receive these very low-level materials. The residues from these materials, as noted in our license application, are in the form of inert slags in very small quantities, which are generated from the melting of the aforementioned material.

If you have any other questions, or require any other answers, we'd be pleased to try to accommodate you.

Very truly yours,

THE PESSES COMPANY

  
Dr. Marvin Pesses
