

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

NOV 16 1979

Docket Nos. 50-452
and 50-453

Detroit Edison Company
ATTN: Mr. Arthur Harris
Project Manager
2000 Second Avenue
Detroit, Michigan 48226

Gentlemen:

Upon receiving Supplement 5 to your Environmental Report for Greenwood Energy Center Units 2 and 3 early this year, we reactivated our environmental review of the Greenwood application. During a subsequent meeting, however, your representatives indicated that Detroit Edison has suspended licensing effort on the project. In view of these circumstances, we have suspended our environmental review of your application. We do not intend to schedule further work until you inform us that you are prepared to go ahead with the review.

Sincerely,

Ronald L. Ballard
Ronald L. Ballard, Chief
Environmental Projects Branch 1
Division of Site Safety and
Environmental Analysis
