UNITED STATES OF AMERICA
NUCLEAR REGULATORY COMMISSION

Commonwealth Edison Company (LaSalle County Station, Units 1 & 2)	)))	Docket Nos.: 50-373 50-374 (10 CFR 2.206)

DIRECTOR'S DENIAL OF REQUEST UNDER 10 CFR 2.206

By petition dated August 21, 1979, Jan L. Kodner, Esq. on behalf of Citizens Against Nuclear Power, et al., requested, pursuant to 10 CFR 2.206 of the Commission's regulations that the Director of Nuclear Reactor Regulation institute a proceeding to suspend or revoke construction permits for the LaSalle County Station, Units 1 & 2, until confirmatory review of possible design changes to the facilities containment systems are completed.

After consideration of the information submitted by Citizens Against Nuclear Power et al., I have concluded that sufficient information now exists to establish acceptance criteria for the design and evaluation of the Mark II containment system at the LaSalle facility. Consequently, the request to institute a proceeding to suspend or revoke the construction permits is denied.

A copy of this determination will be placed in the Commission's Public Document Room at 1717 H Street, N. W., Washington, D. C. 20555 and the local public document room for the LaSalle County Station at Illinois Valley Community College, Rural Route #1, Oglesby, Illinois 16348.

Harold R. Denton

Harold R. Denton, Director
Office of Nuclear Reactor Regulation

Dated at Bethesda, Maryland,
this 4th day of December, 1979.
