MEMORANDUM FOR: Harold R. Denton, Director  
Office of Nuclear Reactor Regulation

FROM: Saul Levine, Director  
Office of Nuclear Regulatory Research

SUBJECT: PREPARATION OF LICENSING DOCUMENTS IN SUPPORT  
OF TAP A-1, "WATER HAMMER"

Subtasks 1.2, 2.0 and 3.2 of Task Action Plan A-1 (Enclosure 1), approved by the Technical Activities Steering Committee in September 1977, stated that required documents will be prepared for providing guidance to the licensing review process.

Enclosure 2 is the scope of work (Program Brief) for a contract RES has prepared to accomplish the objectives identified in subtasks 1.2, 2.0 and 3.2. RES has set aside funds for this effort totaling approximately \$146K and the work is scheduled for completion in FY 1980.

Effort on TAP A-1 has been coordinated with Mr. C. Graves of Reactor Systems Branch.

If you agree that the scope of work outlined in Enclosure 2 is responsive to TAP A-1, please indicate by signing the appropriate signature block and returning a copy to me.
