

REGULATORY DOCKET FILE COPY

DOCKET NO. 50-2.89

DEC 18 1979

Metropolitan Edison Company
ATTN: Mr. J. G. Herbein
Vice President, Nuclear - Operations
P. O. Box 542
Reading, Pennsylvania 19603

Gentlemen:

With your application dated December 4, 1978, you submitted Technical Specification Change Request No. 85 to the Office of Nuclear Reactor Regulation (ONRR) for review and approval, and included a Class II fee pursuant to 10 CFR 170.22. The application relates to Three Mile Island Station Unit No. 1 (License No. DPR-50) Snubber Specifications.

Based on guidance from the ONRR staff as a result of their review of your application, we have determined that the requested action is currently considered to involve a single safety issue. As such, a Class III fee of \$4,000 is required rather than the Class II fee that you paid. It is requested that an additional \$2,800 be forwarded to this office as soon as possible. If the final evaluation of your application by the ONRR staff reveals that this fee is incorrect, your Company will be refunded any overpayment or billed for any additional amount due.

Sincerely,

Original Signed by
Wm. O. Miller

William O. Miller, Chief
