Docket No. 50-312
Rancho Seco Nuclear Generating
Station, Unit No. 1

Dear Mr. Reid:

The District sent you letters on November 30, 1979 and December 31, 1979, describing the modifications required by Paragraph 3.1.31(2) of the Fire Protection Safety Evaluation Report (SER) attached to License Amendment No. 19, dated February 28, 1978. The letter dated December 31, 1979, duplicated information that was contained in the November 30, 1979 letter. Conversations with your staff have indicated that this duplication of information has lead to confusion. Therefore, the District request that you disregard the December 31, 1979 letter, and use the November 30, 1979 letter as the District's official description of the modification required by Paragraph 3.1.30(2).

Sincerely,

John J. Mattimoe
