Docket # 50-289

January 24, 1980

MEMORANDUM FOR: J. Mazetis
J. Roe
J. Lee
F. Allenspach
J. Gilray
B. Boger
J. Nehemias
J. Petersen
J. Vogelwede
R. Reid

FROM: Harley Silver, Project Manager
TMI-1 Restart

SUBJECT: TMI-1 ACRS SUBCOMMITTEE MEETING

As you know, the ACRS TMI-1 Restart Subcommittee will meet on January 31, 1980 at the American Legion Hall in Middletown. We do not yet have an agenda for this meeting, but we will certainly need to inform the subcommittee of the current status of our review. Since Amendment 11 to the Restart Report is not scheduled until the end of January, this update should include review of Amendments 9 and 10 and of any additional appropriate information, and should incorporate any other items whose review has been completed since preparation of the SER.

To form the basis for an ACRS presentation on the status of our review, we should have the following:

1. a narrative description of changes in the SER which will result from our review of January 31; and,

2. the SER Status Summary table marked up to reflect these changes.

The following people are requested to provide this information to me by COB January 25 in the indicated areas. All reviewers are requested to cooperate fully in this effort.
