Division of Operating Reactors

Dear Mr. Reid:

I am in receipt of your memo of January 7, 1980 concerning the upgrading of physical protection requirements.

At this time I am requesting a complete copy of 10 CFR Part 73. At no time in the recent past have I ever received a full copy of this part, although on several occasions (such as January 7, 1980) you have sent bits and pieces of it via the Federal Register. If the NRC seriously expects us to comply with these new upgrading rules I think that the very least they can do is send us a complete set of the laws which we are supposed to follow.

I look forward to receipt of this part of the Code of Federal Regulations.

Sincerely yours,

L. B. Church
