

NSIC

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

December 27, 1979

Docket No. 50-213

Mr. W. G. Council, Vice President
Nuclear Engineering and Operations
Connecticut Yankee Atomic Power Company
Post Office Box 270
Hartford, Connecticut 06101

Dear Mr. Council:

Health Systems Division, Equifax is under contract (NO. NRC-01-79-010) to the U.S. Nuclear Regulatory Commission (NRC), to study the feasibility of performing epidemiologic studies on the health effects of exposure to low-level ionizing radiation. This study was mandated by the Congress of the United States in Public Law 95-601. Information concerning data relevant to epidemiologic studies will be solicited by one or more individuals from Equifax's project team. Individuals who may be assigned to this task include:

Richard W. Clapp
Samuel J. Covino, Jr.
Nancy A. Dreyer
Frederic H. Fahey

Emmy R. Friedlander
James R. Latham
Jeanne E. Loughlin
Richard R. Monson
James Watson

Social security numbers for these individuals are included for identification purposes.

Information provided will be used to determine the adequacy of data upon which to make conclusions on feasibility and recommendations to the Congress. Equifax is not itself performing an epidemiologic study. What is needed is the types and detail of the data recorded and information on how they are obtained. No personal identifiers are required. Questions will be asked to determine the quality of the data. Any information considered proprietary will be maintained confidential by Equifax.

Your cooperation in this effort will be appreciated, and will help ensure that the results are useful to the Congress, the industry, and the NRC.

If you have any questions, please call the NRC technical monitor, Mr. Robert Goldsmith (301-443-5860).

Sincerely,

A handwritten signature in cursive script, appearing to read "Dennis L. Ziemann".
