Gentlemen:

Thank you for your letter of January 15, 1980, informing us of steps you have taken to correct the item of noncompliance concerning activities under NRC Construction Permit Nos. CPPR-118 and CPPR-119 brought to your attention in our letter of October 18, 1979. We will examine your corrective actions and plans during subsequent inspections.

In your letter of January 15, 1980, you requested a meeting on February 14, 1980, at our office in Atlanta to present the test plans and describe all the actions being taken by MP&L to resolve all concerns identified in IE Inspection Report Nos. 50-416/79-15 and 50-417/79-15. Consider this letter as approval of that request. It is my understanding that specific information regarding this meeting will be provided to this office in the near future.

We appreciate your cooperation with us.

Sincerely,

Jack C. Bryant, Acting Chief
Reactor Construction and Engineering
Support Branch
