Director
Office of Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

SUBJECT: Security Plan Implementation
Docket No. 50-302
Operating License No. DPR-72

Dear Sir:

We are unable to totally implement our "Modified Amended Security Plan" as installation of new security hardware has not been completed.

Construction completion dates of the items remaining are given on the attached Security Hardware Modification Completion Schedule. We are also attaching a list of compensatory measures which will be in force until completion of the site security modification.

These measures have been discussed with Mr. E.W. McPeck of your staff who expressed satisfaction with our use of armed guards and watchmen-type security personnel.

If you feel there is a need to modify the compensatory measures, please contact us at your earliest convenience.

Very truly yours,

FLORIDA POWER CORPORATION

W. P. Stewart
