License No. SUB-1010
Docket No. 40-8027

Kerr-McGee Nuclear Corporation
ATTN: Mr. W. J. Shelley, Director
Regulation and Control
Kerr-McGee Building
Oklahoma City, Oklahoma 73102

Gentlemen:

This refers to the investigation conducted by Glen D. Brown of this office on December 4 and 5, 1978, of the activities authorized by NRC Source Material License No. SUB-1010, with respect to the release of licensed material to the unrestricted area on December 1, 1978, and to the discussion of our findings held by Mr. Brown with Messrs. C. A. Grosclaude, J. R. Davenport, and B. E. Brown on December 5, 1978.

The investigation was an examination of operating logs, records of analytical data, interviews with personnel and observations by the investigator, as they relate to radiation safety and to compliance with the Commission's rules and regulations, and the conditions of the license.

No items of noncompliance with NRC requirements were found during the investigation.

In accordance with Section 2.790 of the NRC "Rules of Practice," Part 2 Title 10, Code of Federal Regulations, a copy of this letter and the enclosed investigation report will be placed in the NRC's Public Document Room. If this report contains any information that you believe to be proprietary, it is necessary that you make a written application within twenty (20) days to this office to withhold such information from public disclosure. Any such application must include a full statement of the reasons it is claimed that the information is proprietary. It should be prepared so that proprietary information identified is contained in a separate part of the document, since the application, excluding this separate part, will also be placed in the Public Document Room. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.
