Gentlemen:

SUBJECT: REVIEW OF GENERAL ELECTRIC TOPICAL REPORT NEDO-10466,
"POWER GENERATION CONTROL COMPLEX DESIGN CRITERIA AND
SAFETY EVALUATION"

We have completed our review of Revision 2 of the subject topical report. Based on this review, we conclude that the report is acceptable for reference in license applications as specified in the enclosed evaluation.

The staff does not intend to repeat its review of this topical report when it appears as a reference in specific license applications, except to assure that the topical report is applicable to the specific plants involved.

Should regulatory criteria or regulations change such that our conclusions concerning this topical report are invalidated, you will be notified and will be given the opportunity to revise and resubmit your topical report for review, should you so desire.

In accordance with established procedure, we request that General Electric issue a revised version of the subject topical report to include any supplementary information provided for our review of the report, this acceptance letter, and the enclosed staff evaluation.

Sincerely,

Olan D. Parr, Chief
Light Water Reactors Branch No. 3
Division of Project Management
