Pittsburgh, Pennsylvania 15220

Attention: James P. Rodi

**POOR ORIGINAL**

Dear Sirs:

This is in response to your letter of April 27 concerning the export of reactor components to the Philippines.

We have initiated a technical review of those components indicated in your letter which have been re-examined by Westinghouse and, in your view, determined not to require NRC export licenses. We hope to complete our review in the near future but may require further information from Westinghouse before making our final determination.

In the interim, in view of our previous decision that the export of these components does require an NRC license, we have determined that Westinghouse may not proceed with the export.

Sincerely,

Original signed by  
James R. Shea

James R. Shea, Director
