DRUMORE TOWNSHIP SUPERVISORS

Drumore Township Supervisors
Drumore, Pa. 17518

April 7, 1979

Mr. Richard Denise
Assistant Director for Special Projects
Division of Project Management
Office of Nuclear Reactor Regulation
US Nuclear Regulatory Commission
Washington, DC 20555

Re: Fulton Generating Station
NRC Docket Nos. 50-463 and 50-464

Dear Mr. Denise:

On April 5, 1979, at their regular meeting the Supervisors decided to take the stand to urge the Nuclear Regulatory Commission to maintain its intention to terminate the early site review requested by Philadelphia Electric Company. The Supervisors are strongly opposed to the construction of any type of electrical generating plant on the proposed site in Fulton Township.

This past week, with the disaster at Three Mile Island, has prompted the Supervisors to take this action and go on record against this proposed plant. Residents of Drumore Township appeared at this meeting and voiced their opposition to the proposed plant and urged the Supervisors to do all in their power to stop its construction. No one wishes to relive the anxious moments we have just gone through with the horrible incident at Three Mile Island.

Drumore Township is comprised basically of beautiful farmland and open spaces. The thought of disturbing this area with the ugly towering plant would definitely decrease, not only the lovely view, but the value of the property in the township.

The Supervisors respectfully request that the commission not grant an early site review for this proposed project.

Sincerely yours,

DRUMORE TOWNSHIP SUPERVISORS

Save Solanco Environment
R.D. #1, Box 88
Peach Bottom, PA 17563

Dear Mr. Boomsma:

I would like to make it clear that I, as an elected official representing an area in which Philadelphia Electric is considering building a nuclear power plant, am very much against any such additional plants being built in the proximity of Lancaster County. With Three Mile Island and Peach Bottom nearby, I feel that we have enough nuclear power plants.

With the event of Three Mile Island and the effect it has had on Lancaster County and my constituents, I feel that we have had more than our share of problems associated with nuclear power. It is not that I am totally against nuclear power, but if we are to have it, then let other, more sparsely populated areas shoulder the additional burden.

Thank you for taking the time to write me on this important issue, and if I can help you with any other matter, please feel free to contact me again.

Sincerely,

Gibson E. Armstrong
