RE: [redacted] XB-000873
XB001057

Dear Mr. Moore:

This letter is to request renewal of the referenced export license for tritium gas excited luminous products. The expiration date of September 1, 1979 was inadvertantly omitted from our action calendar since no notice of expiration date was received.

Three (3) copies of application form AEC-7 are enclosed. Your assistance in enabling us to again export our tritium luminous products will be appreciated.

Sincerely,

Harry H. Dooley
