Dear Sir:

Docket No. 50-289
Operating License DPR-50
Nonroutine 10-Day Reports 74-10 and 11

This letter is in regard to two unplanned releases of radioactive material occurring at our Three Mile Island Nuclear Station, Unit 1 (TMI-1), on November 29 and December 2, 1974, and to the two Nonroutine 10-Day Reports which deal with these releases (Report Numbers 74-10 and 74-11). Because these two releases involved the same system, apparent cause, and corrective actions, and because we are being asked by Mr. R. Meyers of DORO-Region 1 to supply additional exposure data not necessarily required by the TMI-1 Technical Specifications, our present intentions are to submit by December 12, 1974, a report which addresses both releases.

We would like to state at this time, prior to submission of this report, that none of the limits of the TMI-1 Technical Specifications were exceeded and no member of the public and no individual on site at the time of the release received a radiation dose in excess of the limits listed in 10 CFR 20.

We trust that this schedule for submission of this report is acceptable to you.

Sincerely,

R. C. Arnold
Vice Presidnet
