U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Sir:

Docket No. 50-289
Operating License No. DPR-50

In our letter of July 11, 1975 we stated that it was our intention to address the concerns of your letter of May 27, 1975 and provide within 6 weeks (by August 22, 1975) a schedule for providing the requested information on Main Steam Isolation Valves (MSIV's) of the angle non-return type.

We have just received a report from the MSIV manufacturer, Rockwell International, which we are evaluating. If our evaluation of the Rockwell report shows that this report is adequate, a complete report answering the concerns of your May 27, 1975 letter will be forwarded within 6 weeks.

Rockwell has concluded by analysis in their report that the MSIV's installed at Three Mile Island, Unit 1 (TMI-1) can withstand a sudden closure which would result from an instantaneous release of pressure upstream of the valve.

Sincerely,

R. C. Arnold
Vice President
