Docket No. 50-289

Gentlemen:

This refers to the inspection conducted by Mr. Folsom of this office on November 16, 1971 of construction activities authorized by AEC Construction Permit No. CPPR-40 and to the discussions of our findings held by Mr. Folsom with Mr. Wright and Mr. Stromberg of your staff at the conclusion of the inspection.

The area examined during the inspection was the progress of your investigation of the voids in the concrete for the Unit No. 1 containment structure ring girder. Within this area, the inspection consisted of selective examinations of procedures and representative records, interviews with plant personnel, and observations by our inspector.

No items of nonconformance were identified in the area examined during the inspection.

No reply to this letter is necessary; however, should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Very truly yours,

James P. O'Reilly
Director
