Docket No. 50-254
Docket No. 50-265

Commonwealth Edison Company
ATTN: Mr. Cordell Reed
Vice President
Post Office Box 767
Chicago, IL 60690

Gentlemen:

This refers to the inspection conducted by Messrs. L. R. Greger and C. C. Peck of this office on November 13-15, 1979, of activities at the Quad-Cities Nuclear Station, Units 1 & 2 authorized by NRC Operating Licenses No. DPR-29 and No. DPR-30 and to the discussion of our findings with Mr. Kalivianakis and others of your staff at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, independent measurements, and interviews with personnel.

The inspection included examinations of two radioactive waste shipments which departed your site on November 14, 1979, as agreed with the State of South Carolina Department of Health and Environmental Control.

No items of noncompliance with NRC requirements were identified during the course of this inspection.

Based on discussions with your representatives at the site, we understand that the program reviews and revisions described in Item 5 of Attachment A to your September 21, 1979 letter from D. L. Peoples to J. G. Keppler will be completed by January 18, 1980, and that the revised programs will be implemented by March 31, 1980.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room, except as follows. If this report contains information that you or your contractors believe to be proprietary, you must apply in writing to this office, within twenty days of your receipt of this letter, to with-

hold such information from public disclosure. The application must include a full statement of the reasons for which the information is considered proprietary, and should be prepared so that proprietary information identified in the application is contained in an enclosure to the application.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

for 
A. B. Davis, Chief
Fuel Facility and
Materials Safety Branch
