Log: GM-542

Gentlemen:

The following is submitted in response to your letter dated November 2, 1979 concerning I.E. Bulletin 79-25.

No relays of the types discussed in I.E. Bulletin 79-25 have been used in any Class I equipment to date. However, as design of some of the systems furnished by the vendor is not complete, measures will be taken to ensure that the defective relays are not used.

Very truly yours,

Doug Dutton
Project General Manager
