Re: Pacific Gas and Electric Company, (Stanislaus Nuclear Project Unit No. 1) NRC Docket No. P-564A

Dear Mr. Vogler:

As you know, PGandE recently completed production to the Staff of copies of documents selected from boxes of documents kept at PGandE's retired records storage. The Staff selected documents from these boxes as part of its investigation of allegations of PGandE's improper transfer of documents to warehouse storage. The Staff requested a letter from us at the conclusion of document production which restates the agreements we made with respect to certain document selection criteria for these documents.

As we reviewed the documents selected by the Staff, we found categories of documents which we believed that the Staff would choose not to review. At those times, pursuant to telephone conversations, we made a series of agreements which resulted in the exclusion of certain specific categories of documents from production to the Staff. The condition for these exclusions was that PGandE would identify the documents excluded pursuant to our agreements. The categories of documents we agreed to exclude follow:

8002130 275

1. Personal records unrelated to company business;

2. Documents dealing with the subjects of equal opportunity or racial discrimination; and

3. Personnel and time records.

If this letter does not accurately restate our agreements, please notify me.

Very truly yours,

RICHARD L. MEISS
