Dear Sir/Madam:

Public Service Electric and Gas Company has filed a petition with the NRC to increase the capacity for on-site spent fuel storage from 264 to 1170 fuel assemblies at the Salem Nuclear Generating Station, Unit No. 1 (Docket No, 50-272). I wish to make a "limited appearance" at the public hearings to be held in Salem County later this year for the purpose of expressing my opinions and making recommendations concerning this case. I will be representing the SEA (Safe Energy Alternatives) Alliance, a New Jersey based organization opposing nuclear power plants.

Sincerely yours,

Daniel A. Rita, Jr.
