Vice President, Power Generation
Box 201
Tulsa, Oklahoma 74102

Gentlemen:

This refers to the inspection conducted by Mr. W. G. Hubacek of our staff on November 21, 1978, of the implementation of your quality assurance program for construction activities related to your application for a construction permit for Black Fox Station, Units No. 1 and 2, and to the discussion of our findings with Mr. H. H. Eller and other members of your staff at the conclusion of the inspection.

Areas examined during the inspection and our findings are discussed in the enclosed inspection report. Within these areas, the inspection consisted of selective examination of procedures, representative records, interviews with personnel, and observations by the inspector.

Within the scope of the inspection, no deviations were identified.

In accordance with Section 2.790 of the NRC's "Rules of Practice, Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room. If this report contains any information that you believe to be proprietary, it is necessary that you submit a written application to this office, within 20 days of the date of this letter, requesting that such information be withheld from public disclosure. The application must include a full statement of the reasons why it is claimed that the information is proprietary. The application should be prepared so that

any proprietary information identified is contained in an enclosure to the application, since the application without the enclosure will also be placed in the Public Document Room. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

for W. C. Seidle, Chief
Reactor Construction and
Engineering Support Branch

Enclosure:
