Dear Mr. Stello:

Reference: Enrico Fermi Atomic Power Plant - Unit 2  
NRC Docket 50-341

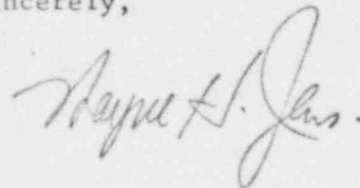

Subject: Physical Security Plan, January 1979

On January 2, 1979 Detroit Edison submitted five (5) copies of the "Physical Security Plan" dated January, 1979 for the purpose of complying with 10 CFR 73 of the Commission's Rules and Regulations.

In reviewing our internal copies of the Plan, we have noticed that the reproduction quality of certain figures was not consistent throughout all copies. These figures included Figure 3-2, 3-4, 5-4, 5-5, and 5-6. We have had these figures reproduced with improved quality.

To insure satisfactory prints in the NRC copies of the Plan, please replace these figures with the attached five (5) sets of prints.

Sincerely,

WHJ/LES/RMB/jr
