RE: Wolf Creek

Dear Sir:

I am concerned about the quality of the concrete used on this project as we live only 30 miles north of Wolf Creek.

I have heard statements from various workers that causes me deep concern for all people who live in this region.

I wonder if people who are responsible for the building of this plant would feel comfortable living where I do.

I am deeply concerned and hope you are.

Acknowledged by card...^{2/2}.....

Sincerely,
Mary H. Bond
