Gentlemen:

This letter confirms my telephone conversation with Mr. Hillyard on May 21, 1979 regarding the proposed office space for our Inspection and Enforcement Inspector at the Fort St. Vrain facility.

The attached sketch illustrates the desired location of electrical outlets and telephone jacks. In addition, the sketch calls for a wall division to provide an office area which would be separated from the balance of the office space. We understand that the wall division will not extend completely to the ceiling for ventilation considerations.

Your cooperation in the matter of establishment of the resident office is greatly appreciated. Should you have any questions, please feel free to contact either myself or M. W. Dickerson.

Sincerely,

G. L. Madsen, Chief,
Reactor Operations and
Nuclear Support Branch
