Docket No. 50-346

Mr. Lowell E. Roe
Vice President, Facilities
Development
Toledo Edison Company
Edison Plaza
300 Madison Avenue
Toledo, Ohio 43652

Dear Mr. Roe:

In your letter dated March 16, 1979 you submitted the Radiological Effluent Technical Specifications for Davis-Besse Nuclear Power Station, Unit No. 1. However, you did not supply a Solid Radwaste Process Control Program (SRPCP). Our staff discussed this with your staff on April 27, 1979. Your staff indicated that the SRPCP was a part of the plant procedures and that you do not normally send plant procedures for review by the NRC. As we indicated in that discussion, we need your SRPCP to complete our review of the Radiological Effluent Technical Specifications for Davis-Besse - 1. Therefore, we request you to send the SRPCP no later than June 1, 1979.

Sincerely,

A handwritten signature in cursive script that reads "Robert W. Reid".
