Dear Professor Burt:

Thank you for your letter requesting information about the accident at the Three Mile Island Nuclear Power Station. I regret that this answer to your letter has been delayed. The accident and its consequences have created a substantial increase in the agency's workload, which has prevented us from responding to you as promptly as we would have liked to.

I am enclosing a summary of an investigation of the events at Three Mile Island conducted by the Nuclear Regulatory Commission's Office of Inspection and Enforcement. The complete report from which this summary was taken is entitled, "Investigation into the March 28, 1979 Three Mile Island Accident by Office of Inspection and Enforcement" (NUREG-0600). A copy of the full report can be obtained by writing to:

Sincerely,
