Mr. John T. Conway
Executive Director
Joint Committee on Atomic Energy
Congress of the United States

Dear Mr. Conway:

A copy of a notice which has been transmitted to the Office of the Federal Register for filing and publication is enclosed for the information of the Joint Committee. The notice relates to an application filed by Metropolitan Edison Company for authorization to construct and operate a pressurized water nuclear reactor electric generating plant to be located on Three Mile Island, in Londonderry Township of Dauphin County, approximately eleven miles southeast of Harrisburg, Pennsylvania.

The proposed nuclear power plant, designated as the Three Mile Island Nuclear Station Unit 1 is designed to operate initially at a thermal power level of approximately 2452 megawatts which corresponds to a gross electrical output of 845 megawatts. The Three Mile Island Nuclear Station Unit 1 is scheduled for earliest completion of construction in December 1970.

Sincerely yours,

(signed) Harold L. Price

Harold L. Price
Director of Regulation

Enclosure:
Notice to Federal Register
