Amended Physical Security Plan

Mr. Michael J. Gaitanis  
Office of Nuclear Reactor Regulation  
Reactor Safeguards Licensing Branch  
United States Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Gaitanis:

Attached for your review and comment are draft revisions to the amended Physical Security Plan which will hopefully meet with NRC concurrence.

This and future submittals will consist of the following:

1. The Physical Security Plan
  - a. The plan indicates our preferred methods for meeting the requirements of 10 CFR 73.55.
  - b. Some of these methods will be implemented by February 23, 1979 and some will not.
2. A Supplement to the Physical Security Plan
  - a. Where the methods described in the plan will not be implemented by the February deadline, the supplement describes interim measures which will be taken to meet the requirements of 10 CFR 73.55
  - b. As the preferred methods are implemented, you will be notified and the appropriate portions of the supplement will be deleted.

3. A Physical Security Plan Implementation Matrix
  - a. This matrix identifies those portions of the plan or supplement currently in effect.
  - b. Also included in the matrix are projected implementation dates for the preferred methods.

Additional submittals will be forthcoming in the very near future.

Very truly yours,

*W. M. Marquardt*
